The British Finger Lift Championships was a very pleasant day out, with some very tough and demanding performances from the lifters, in a comfortable setting at the Illingworth Liberal Club in Halifax, where the steward and staff couldn't have been more helpful. Thanks go out to the promoters and organisers of the event: Barry Anderson and Gerry Davidson, I understand that Gerry is in fact a member of the club and can often be found on the stage, taking part in the Karaoke on Friday evenings.

The lifters all performed well, and several new record marks were set and broken. At the conclusion of the event Barry Anderson and the steward of the club presented the medals and very nice certificates to the athletes, including a certificate recognising that the lifters totals would be used to comprise the IAWA(UK) team score in a Finger Lift postal match with lifters from the USA. Gerry Davidson made it to third place for the best overall lifter rankings on the day, with Andy Goddard taking a very good second place. The overall best lifter was Steve Andrews with a great amended score of 384.0 kilos.
