**Promoters Report**

*It was a small but enthusiastic gathering this year at the old Bass Museum, and there was some excellent lifting performed to the delight of the onlookers. With plenty of time available most of the lifters set about tackling two record attempts each, except young Barry Anderson who did no less than four. The competition was held amid a wonderful friendly atmosphere and afterwards many partook of a wonderful three course meal served up in the Coors Executive Suite.*

*Before the presentation of the days awards, the Health and Strength Trophy for the best IAWA(UK) Junior Lifter in 2006 was presented by Karen Gardner to Mandy Hughes. Mandy, 14 years of age has had a terrific year, with some great results and many good records. Mandy was a well deserved winner of the annual award, and thanks go to Roy Edwards and the Health and Strength Magazine for supporting the IAWA (UK) in such great fashion.*
